

Amendments to the Specification

Please change the title on page 1 and page 41 as follows:

METHOD, SYSTEM, AND PROGRAM FOR PERFORMING WORKFLOW
RELATED OPERATIONS USING AN APPLICATION PROGRAMMING INTERFACE

Please replace paragraph 7 on page 3 with the following rewritten paragraph:

[0007] Provided is a method, system, and program for performing workflow related operations. An application programming interface (API) call (~~API~~) is received to perform a workflow related operation. A determination is made of at least one stored procedure call associated with the received API. The determined at least one stored procedure is then called to cause the execution of one determined stored procedure on a database server to perform the workflow related operation of an API of the API call.

Please replace paragraph 9 on page 4 with the following rewritten paragraph:

[0009] Further provided is a method, system, and program for performing workflow related operations at a database server in communication with a client. At least one call to one stored procedure is received at the database server associated with an application programming interface (API) call (~~API~~) invoked from the client to perform a workflow related operation. The database server executes the at least one called stored procedure to perform the workflow related operation of an API of the API call.
